

## WINGS CFI Forum: ADS-B... the myth... the legend!

We've heard about it, everybody is talking about it... but what is ADS-B and how does it fit into the "system" for the CFI.

You'll learn the history, from Capstone until now, and we'll look at the technology, rules and acronyms that are behind all the fuss.

How much is it going to cost as we get closer to that possible 2020 deadline for those that fly "in the system".

What's available now and what might be coming to make the technology cheaper.

**Directions:** The airport is east of 360 and north of I-20 on Great Southwest Parkway between Arkansas Lane and Mayfield Road. Conference Room is in the Terminal Building. GA aircraft parking available on the ramp directly in front of the terminal conference room.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
